INTRODUCTION

1. Australia supplied the UNCTAD secretariat with information on its imports from beneficiaries of its scheme of generalized preferences in fiscal year (FY) 1990/91. 1/ A summary of the information contained in this reply is given below and the detailed data on imports from beneficiaries are presented in the annex. 2/ The information contained in tables A and B relates to the value of total, dutiable GSP-covered/received imports 3/ from each beneficiary of products contained in chapters 1-24, 25-99 and 1-99 of the Harmonized System (HS). Table C gives the value of imports of products covered by the scheme from the world and the total of covered/preferential imports from all beneficiaries as well as from major beneficiary suppliers of their products.

Imports by Australia from beneficiary suppliers in fiscal year 1990/91

2. As may be seen from table B, Australia registered imports from 124 beneficiaries in FY 1990/91. Twenty-seven of the beneficiaries did not export any dutiable products to Australia and therefore could not avail themselves of the advantages under the scheme. Fifteen of the beneficiaries could not lay claim to preferential treatment because their exports were not covered by the scheme. Thus, 82 beneficiaries actually received GSP treatment in FY 1990/91.

3. Total Australian imports from all beneficiaries in FY 1990/91, as shown in table A, amounted to US$ 9.45 billion. Dutiable imports accounted for US$ 4.49 or 47.5 per cent of the value of total imports. Of these imports, 95.2 per cent or US$ 4.27 billion were covered by the scheme. The bulk of these covered imports (US$ 4.33 billion) consisted of industrial products and raw materials falling within the Harmonized Coding and Description System (HS) chapters 25-99. Agricultural products in HS chapters 1-24 accounted for the remaining US$ 239 million. All these covered imports received preferential treatment and therefore the overall rate of utilization of the Australian scheme as measured by the ratio of imports covered by the scheme was 100 per cent in FY 1990/91.

4. Seven major suppliers accounted for US$ 3,453.3 million or 80.8 per cent of all imports covered/received by the Australian scheme in FY 1990/91. By order of the relative value of covered/received imports into Australia, the major suppliers were: Taiwan (Province of China), China, Republic of Korea, Hong Kong, Thailand, Malaysia and Singapore.

5. Total Australian imports from least developed countries (LDCs) in FY 1990/91 attained a value of US$ 79 million. Eleven beneficiary LDCs 4/ had no dutiable imports. In addition, 7 other beneficiary LDCs did not have covered imports. 5/ Therefore these 18 LDCs were not able to avail themselves of the advantages under the scheme. Finally, 8 LDCs received preferential treatment in FY 1990/91. Covered/received Australian imports from these LDCs amounted to US$ 8.498 million. Malawi (US$ 6.5 million), United Republic of Tanzania (US$ 0.620 million), Samoa (US$ 0.570 million), Bangladesh (US$ 0.529 million), Vanuatu (US$ 0.206 million) and Nepal (US$ 0.074 million) accounted for nearly 100 per cent of total covered/received imports from LDCs. Malawi alone accounted for 76.5 per cent of total covered/received imports.

6. Australian imports of products covered/received by its scheme from Mediterranean (MED) and ACP countries, which enjoy special preferences in the EEC market, amounted to US$ 52.1 million and US$ 21.1 million respectively in FY 1990/91. The two groups of countries supplied 1.7 per cent of products which actually received preferential treatment.

Imports of major products covered by the Australian scheme in FY 1990/91 and their major beneficiaries

7. Table C shows the value of Australian imports in FY 1990/91 of products covered by the scheme from the world, all beneficiary suppliers and individual major suppliers of HS chapters at the two-digit level. Imports from beneficiaries of major products covered by the scheme (80 per cent of all imports from beneficiaries covered by the scheme) were recorded under 21 HS chapters. Imports of these major products from beneficiaries amounted to US$ 3,443.2 million or 80.6 per cent of the total covered by the scheme (US$ 4,271.4 million). It should be noted that all these major products are industrial products and therefore fall within chapters 25 to 99.

8. The 21 major products were (value of covered/received imports expressed in US$ million): HS 85 Electrical machinery and equipment... (527.6), HS 39 Plastics and articles thereof (255.7), HS 64 Footwear... (220.9), HS 95 Toys, games and sports requisites (209.4), HS 61 Articles of apparel and clothing accessories, knitted or crocheted (205.2), HS 62 Articles of apparel and clothing, accessories not knitted or crocheted (197.0), HS 55 Man-made staple fibres (164.2), HS 99 Industrial products not elsewhere specified 6/ (161.3), HS 84 Nuclear reactors, boilers, machinery... (156.9), HS 44 Wood and articles of wood (149.7), HS 52 Cotton (148.2), HS 94 Furniture... (134.0), HS 42 Articles of leather (134.0), HS 73 Articles of iron and steel (126.6), HS 87 Vehicles other than railway (126.6), HS 72 Iron and steel (105.8), HS 40 Rubber and articles thereof (100.2), HS 48 Paper and paperboard (92.6), HS 54 Man-made filaments (87.1), HS 63 Other man-made textile articles (80.0), HS 69 Ceramic products (59.4).

Notes

1/ The detailed information was supplied on diskette.

2/ For previous information received from Australia, see TD/B/C.5/PREF/46.

3/ Under the Australian scheme, all covered imports indeed received preferential treatment. The rate of utilization is therefore equal to 100 per cent.

4/ Afghanistan, Chad, Comoros, Ethiopia, Liberia, Rwanda, Sudan, Togo, Tuvalu, Uganda and Yemen.

5/ Botswana, Cambodia, Kiribati, Lao People's Democratic Republic, Mali, Mozambique and Niger.

6/ This chapter is reserved for special uses by contracting parties to the HS.
